For ParSU students

November 2026

START HERE

Four steps to ask for support

PsyCheck is the school site where students request psychosocial support. You create a student account, sign in, choose an open schedule, and wait while a counselor reviews the request.

1

Register

Create a student account with your ParSU email.

2

Log in

Sign in as Student. You go straight to booking.

3

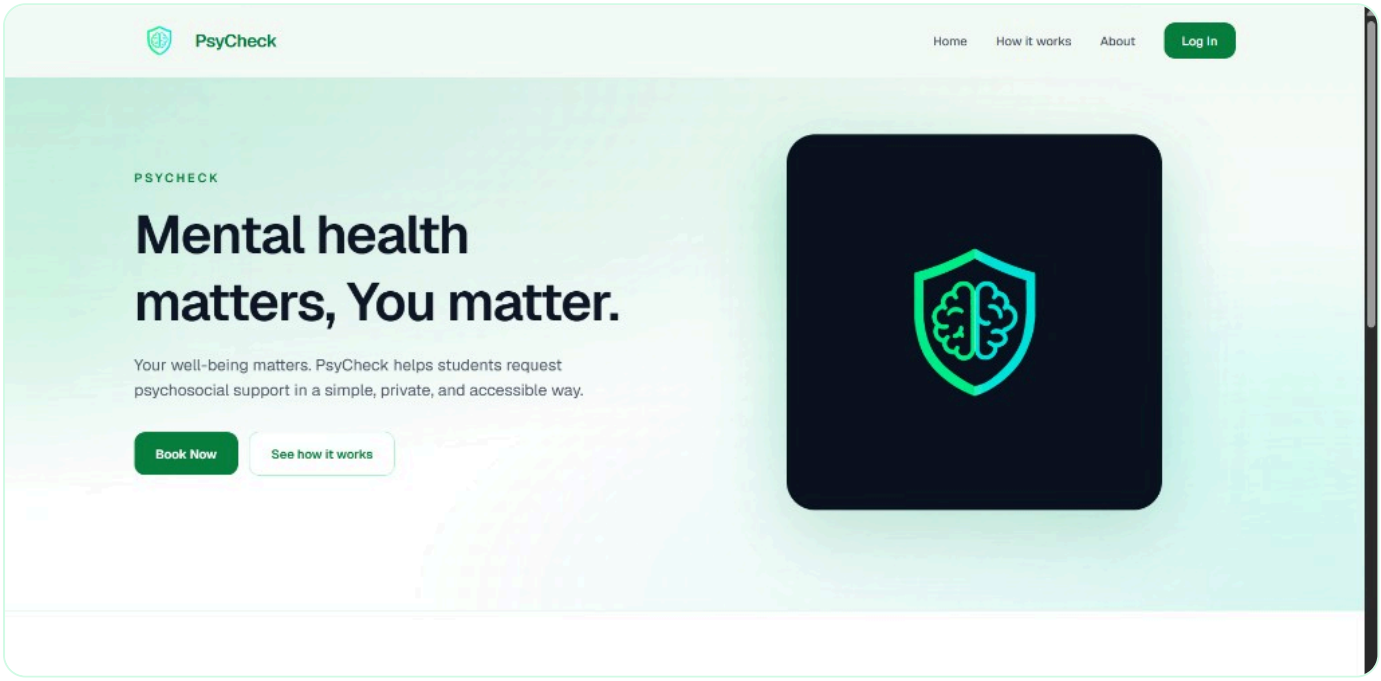

Book

Pick a service, an open date and time, and a reason.

4

Wait

The request stays Pending until it is reviewed.

Home page. Book Now and Log In both open the same sign-in screen.

Have these ready

- Your full name and student ID
- Your year level (1st through 4th Year)
- Your ParSU email, ending in **.pbox@parsu.edu.ph**
- A password of at least 6 characters

What “approval” means

Creating an account does not need approval. You can sign in after you register.

The wait starts after you click **Request Appointment**. The request stays **Pending** until a counselor or administrator reviews it.

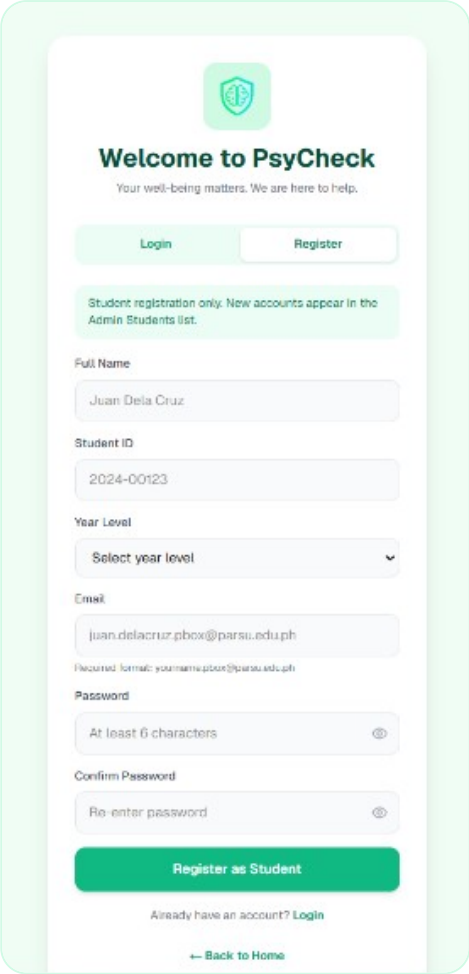

STEP 1 · REGISTER

Create your student account

Registration is for students only. Open the site, then choose **Log In** or **Book Now**.

1. **Open the Register tab**
   On Welcome to PsyCheck, choose **Register**. You can also use **Create an account** under the login form.
2. **Enter your school details**
   Full name, student ID, and year level. Use the name you want counselors to see. You cannot edit it later on the booking form.
3. **Use your ParSU email**
   It must end with **.pbox@parsu.edu.ph**. Example: juan.delacruz.pbox@parsu.edu.ph
4. **Choose a password**
   At least 6 characters. Type it again in Confirm Password. The eye icon shows or hides what you typed.
5. **Click Register as Student**
   If you are signed in right away, PsyCheck opens Book an Appointment. Otherwise it returns to Login and tells you to sign in as Student.

Student accounts only. The green note on the form says new accounts appear in the Admin Students list. That is for the office. You do not wait for anyone before you can log in.

Register tab on the live site.

FIELD	WHAT TO ENTER
Full Name	The name counselors should see. Example: Juan Dela Cruz.
Student ID	Your ID number. Example: 2024-00123.
Year Level	1st Year, 2nd Year, 3rd Year, or 4th Year.
Email	Must end in **.pbox@parsu.edu.ph**. Example: juan.delacruz.pbox@parsu.edu.ph.
Password	At least 6 characters. The eye icon lets you check the spelling.
Confirm Password	Type that same password again.

STEP 1 · REGISTER

After you click Register

Every field is required. If the email is not a ParSU student address, or the two passwords differ, the form stays put and the reason appears in red. When it succeeds, you will see one of the two results below.

A complete example

- **Full Name** — Juan Dela Cruz
- **Student ID** — 2024-00123
- **Year Level** — 1st Year
- **Email** — juan.delacruz.pbox@parsu.edu.ph
- **Password** — at least 6 characters, typed twice

Check before you submit

- The Register tab is the one that looks selected.
- The email ends in .pbox@parsu.edu.ph, including the dot before pbox.
- You opened the eye icon and the password matches Confirm Password.
- Year level is chosen. "Select year level" is not a finished answer.

After a successful register

- You may go straight to **Book an Appointment**.
- Or you see: "Registration successful. You can now log in as Student with your email and password."
- Keep the same email and password. There is no separate approval for the account.

If register does not finish

- "Use your ParSU student email ending in .pbox@parsu.edu.ph."
- "Password must be at least 6 characters."
- "Passwords do not match."
- "Please complete all registration fields."

Use your own account. Do not share your password. On a shared computer, log out when you finish. Logout is on the booking page, at the top right.

STEP 2 · LOG IN

Sign in as Student

From the home page, choose **Log In** or **Book Now**. Both open Welcome to PsyCheck. Stay on the **Login** tab.

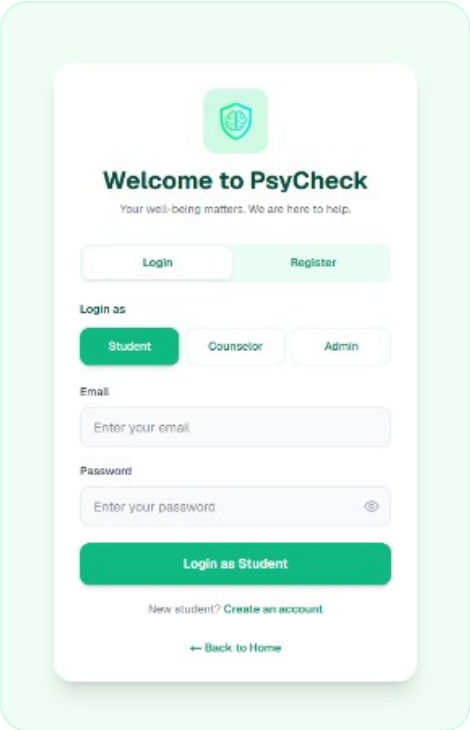

1. **Choose Student**
   Under Login as, **Student** must be the green button. Counselor and Admin are for staff. A student account will not open those roles.

2. **Enter your email and password**
   Use the ParSU email and password from registration. The eye icon shows the password if you need to check it.

3. **Click Login as Student**
   The button says "Signing in..." while it checks the account. A successful login opens **Book an Appointment**.

You should land on booking. The top of that page shows your name, a Home button, and Logout. If you are sent back to login, the email or password did not match, or Student was not selected.

Wrong role. If you pick Counselor or Admin, PsyCheck signs you out and says the account is registered as student, not that role. Choose Student and try again.

Login tab. Student is the role to select.

Parts of this screen

- **Login / Register** switches between signing in and creating an account.
- **Login as** must stay on Student.
- **Create an account** jumps to the register form if you do not have one yet.
- **Back to Home** leaves this screen without signing in.

If the password fails

- The message "Invalid email or password" means one of the two does not match the account.
- Retype the ParSU email. It is stored in lowercase.
- Use the eye icon, then try Login as Student again.
- A new student uses Register first. Login cannot create the account.

STEP 3 · BOOK

The appointment page

You must be signed in. If you open booking without an account, PsyCheck sends you to login first. Your name, student ID, email, and year level are copied from registration. You do not type them again.

What is already filled in

The green Student Information box is labeled “Logged in as.” It shows the name, ID, email, and year level from your account. If the name is missing, log out and sign in again.

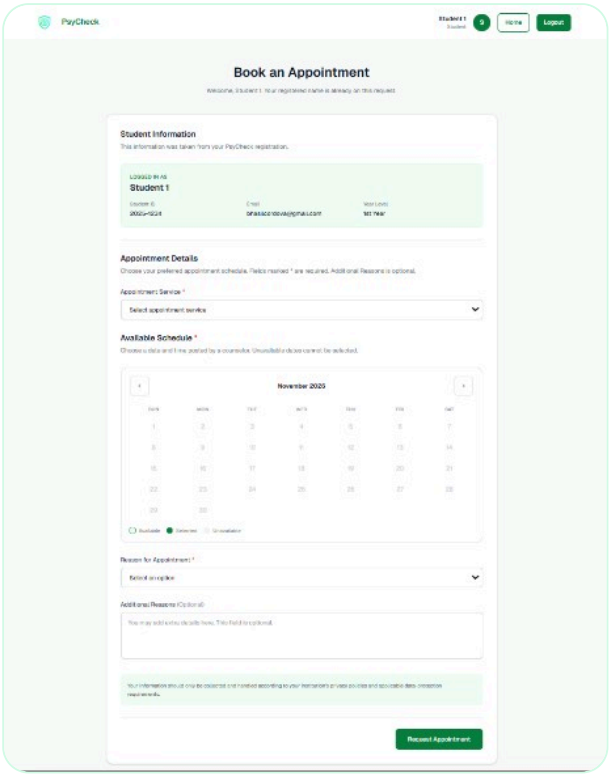

Buttons at the top

Home returns to the public page. You can come back to booking while you are still signed in. **Logout** ends the session. Use it on a shared computer.

What you still choose

Fields with a red asterisk are required: appointment service, an available date, an available time, and a reason. Additional Reasons is optional.

> The names in the photo are from a sample login. Your own registration details appear in that green box.

Book an Appointment, after a student logs in.

1

Your details

Already taken from registration. Check that they are yours.

2

Service

Face to Face, Online, or Referral.

3

Schedule

A posted date, then one of the times under it.

4

Reason

Pick a reason, then Request Appointment.

STEP 3 · BOOK

Choose a service and a time

1 Appointment Service

Open the list and choose one. Only dates posted for that service can be selected. Changing the service clears a date you already picked.

Face to Face | Online | Referral

Face to Face is an in-person session. Online is a remote session. Referral is for requesting support for another student. Referral asks for that student's name, student number, session (Face to Face or Online), ParSU email, and the cause of the referral.

2 Available Schedule

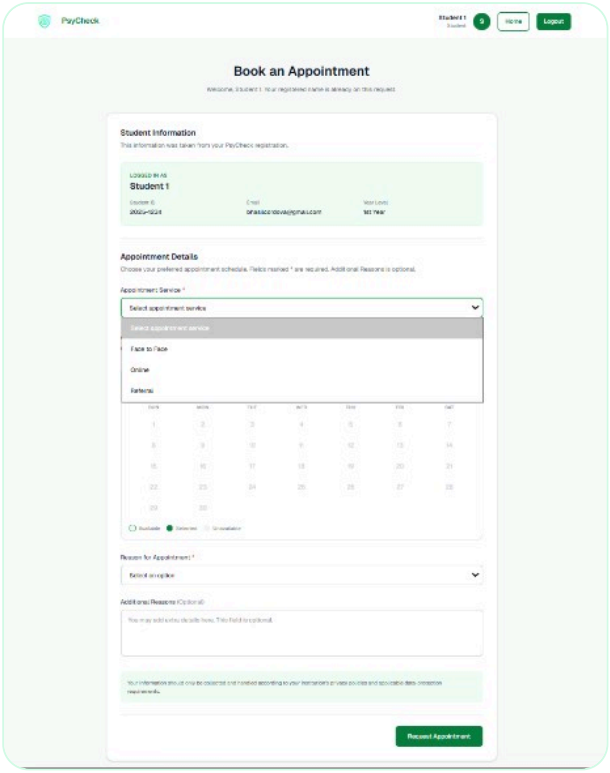

Pick a date a counselor has opened. Gray dates cannot be clicked. Use the arrows beside the month to move forward or back.

3 Choose a time

After the date, time buttons appear. Each one shows the hours and the session type. A green line confirms the time you selected.

Available Selected Unavailable

No dates yet? If the page says no counselor schedules are posted, check again later or try another service. You cannot type in your own date.

The three appointment services.

If you choose Referral

A green box opens under the service list. It is about the other student, not about you. All of these are required, and the email must be a ParSU student address.

Name	The student you are referring.
Student Number	That student's ID number.
Session	Face to Face or Online. This filters the dates you can pick.
Gmail	Their address, ending in .pbox@parsu.edu.ph.
Cause of Referring	Why you are asking the office to see them.

STEP 3 · BOOK

Give a reason and send the request

4 Reason for Appointment

Choose the option that fits best. This field is required.

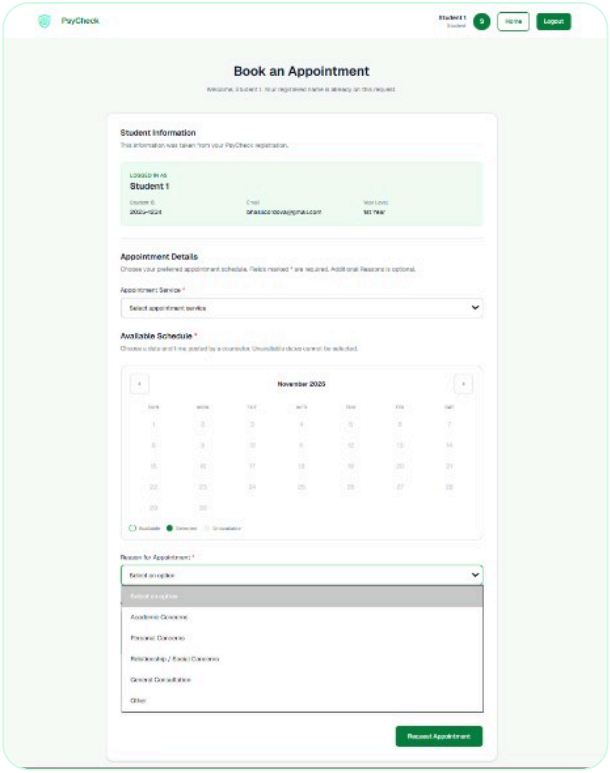

Academic Concerns	Schoolwork, classes, or study stress.
Personal Concerns	Something you want to talk through privately.
Relationship / Social Concerns	Friends, family, or other relationships.
General Consultation	You want guidance and are not sure of the category.
Other	None of the choices above quite fits.

5 Additional Reasons, if you want

This box is optional. Add only what you are comfortable sharing. Leave it blank if the reason list is enough.

6 Click Request Appointment

The button changes to “Submitting...” while the request is saved. Do not close the page until the confirmation appears.

Reason list on the live booking form.

If a required choice is missing, PsyCheck lists it in red and scrolls to the first empty field. Fix those items, then send the request again.

What gets saved

- Your registered name, ID, email, and year level
- The service, date, and time you selected
- The reason, plus any optional note
- Status: Pending, until someone reviews it

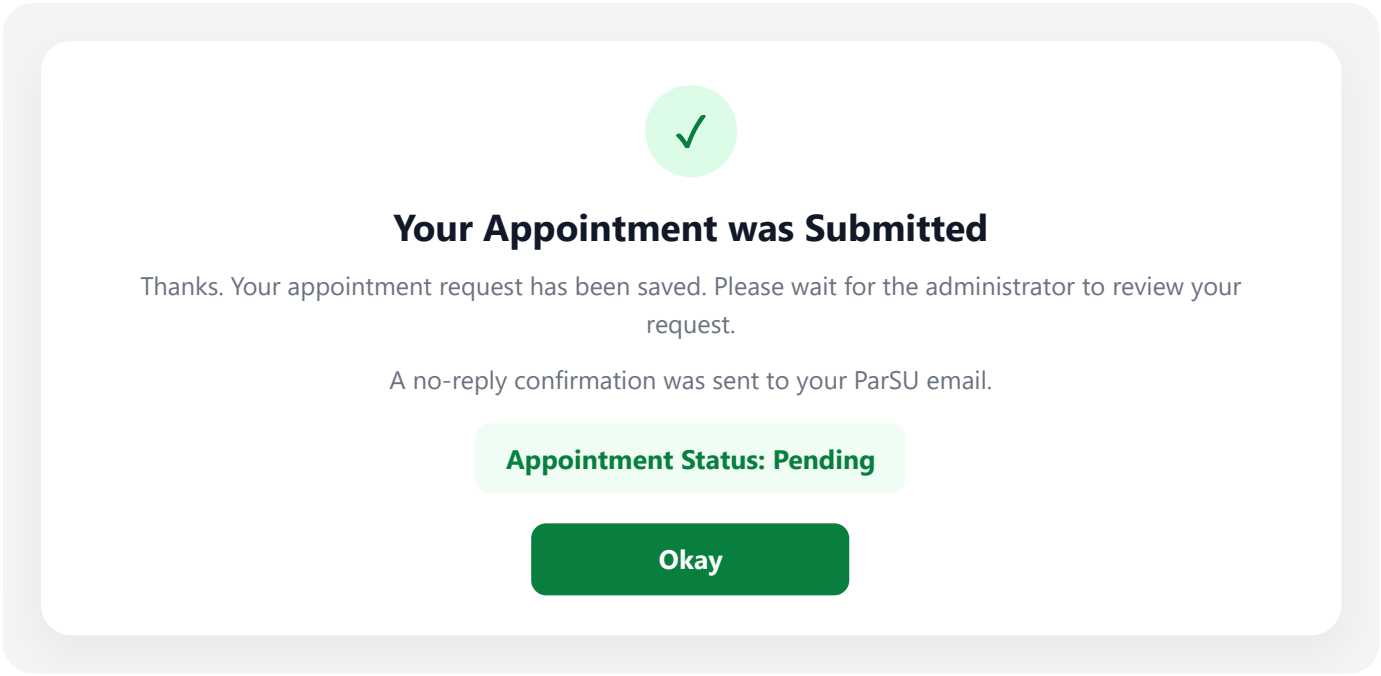

Before you leave the page

- Wait until the confirmation window appears.
- Read the status. It should say Pending.
- Click Okay. The next page of this guide explains that window and the email.

STEP 4 · WAIT FOR APPROVAL

Your request is Pending

A saved request is not yet a confirmed appointment. The screen tells you to wait for the administrator to review it. The status on that message is **Pending**.

The confirmation that appears on the site after Request Appointment. Click Okay to close it.

Check your email

Look in the inbox of the ParSU address you registered with. The message comes from PsyCheck and should not be replied to.

```
Subject: PsyCheck appointment request received
```

It repeats your service, date, time, and mode, and it says **Status: Pending**. A counselor will review the request. Also check Spam or Junk.

While you wait

- Pending means the office has the request and has not confirmed it yet.
- There is no separate status page. This message and the email are your record.
- If the dialog says the email could not be sent, the request is still saved.
- Do not create a second account for the same request.
- You can log out. You do not have to leave this window open.

AFTER APPROVAL

What arrives when it is decided

You will hear back on the same ParSU email. Read the newest PsyCheck message before you go to a session, because the schedule can change.

Approved

`Subject: PsyCheck appointment approved`

The message says your psychosocial support appointment request has been approved. It lists the service, date, time, and mode.

For an online session, the email may include a meeting link. Use that link at the approved time. For face to face, attend in person at the date and time in the email.

Rescheduled

`Subject: PsyCheck appointment rescheduled`

A counselor saved a new schedule. The message shows the updated date and time, and the status is **Rescheduled**.

Follow the new details, not the time you first requested. An online session may include a new meeting link.

If something does not work

WHAT YOU SEE	WHAT TO DO
Invalid email or password	Check the ParSU address and password. Use the eye icon. Stay on Login as Student.
Registered as student, not counselor	You chose a staff role. Select Student, then log in again.
No schedules are posted	A counselor has not opened that service yet. Try another service, or check back later.
Please fill out these required fields	Service, date, time, and reason are required. Referral also needs the other student's details.
Email could not be sent	The appointment request is still saved as Pending. Tell the office if you need them to confirm they received it.

If you need help sooner than an appointment. Do not wait on a Pending request when someone is in immediate danger. Contact campus security or local emergency services. The form also reminds you that your information is handled under your school's privacy rules.
